Request for Sponsorship or Donation

Supporting our Communities we work and live in has always been an important focus for HWR. While we recognize that we cannot make sponsorship and donations to everyone who approaches us, we do support a wide range of organisations.

Transport World and the HW Richardson Group, and its associated companies, receive requests on a daily basis from individuals and organisations for sponsorships or donations.

Sponsorship is a scarce resource and will only be provided where there is a strong connection with a business activity of HWR and further, it can be shown that value justifying the investment will be returned to the business.

Donations are made solely at the discretion of the owners of the business for causes and purposes they support. Trustees and Directors of HWR and Transport World do not accept personal requests.

We do not sponsor or make donations for the following:

- Individuals; unless significant fit in line with our business initiatives
- Anything outside of the geographic borders of New Zealand
- Retrospective and urgent applications

This document should be completed and submitted with any request for sponsorship or donation so that applications are considered fully and consistently.

Requests not accompanied by this document will not be considered further.
