

TruckSafe

QUIZ FOR KIDS

Episode 1: On your feet, away from the street

1. When you're walking on the footpath and you reach a driveway, you should _____, look and listen for cars reversing or entering before crossing to the other side.
2. What side of the road should you walk closely next to when you're on the footpath and there's trucks and cars whizzing past on the road?
3. If there's no traffic lights and you need to cross the road, you should stop, wait and use your supersonic senses to look _____ and then _____. If it's safe, then you can quickly make your way by walking, not running, to the other side of the road.

Episode 2: Being seen means being safe

1. Why should you never stand in front of, next to or right behind a truck? (Especially if it's moving!).
2. Truck Norris has given us some great tips for how to behave around big trucks and the importance of wearing your hi-vis near the road. His first tip is: Being means being safe.
3. Fill in the rest of this sentence to complete the message Truck Norris shared with us! If you can't see the truck driver in the truck's mirrors, they can't !

Episode 3: Safe on your wheels, no risky deals

1. Why should you ALWAYS wear your helmet when you're biking, scootering or skateboarding alongside a busy road?
2. If you're riding along the road and want to turn left, you should put your hand out to let cars and trucks know which direction you are turning.
3. Truck Norris told us that when crossing a road, you should always get off your bike and walk it across safely but quickly. **True or False?**
